STATE OF WASHINGTON

OFFICE OF CHIEF INFORMATION OFFICER

SOLUTIONS ARCHITECT

SALARY \$85,000 - \$95,000 Annually plus Benefits

LOCATION Olympia, Washington

OPENS March 25, 2013

CLOSES The announcement is open until the position is filled. Interviews will begin immediately. If you have applied for a previous OCIO position and are interested in this position, please re-apply.

POSITION DESCRIPTION

Are you looking for complex challenges? Do you wish you could use new technology to address civic problems and make an impact? Do you like taking on big enterprise problems but producing quick wins? Do you want a job that has a meaningful and positive impact on your colleagues, friends, and neighbors?

The State of Washington has diverse lines of business including healthcare, public safety, cyber security, and education to name a few. The Office of the Chief Information Officer (OCIO) drives the technology vision for the State of Washington. By following, investigating, and experimenting with emerging technology to solving tough business problems, the OCIO leads by example and assists agencies in building quality state services through the innovative use of technology.

We also help agencies adopt and leverage new technology by working with them on their diverse business and technology initiatives. Since the OCIO works with all agencies, employees of the OCIO deal with an extremely broad set of business issues and technology that develops experience rarely achieved outside of the public sector.

We are looking for a talented, enthusiastic, and creative solutions architect with strong experience in product development using the latest application development languages, technology infrastructure, mobile devices, and best practices. You must be someone who is constantly challenging themselves, learning new things, and an avid technologist that follows changes and trends in the industry. You must be someone who

can apply experiences and knowledge to creation of real solutions that will better state government.

We are building an architecture program that models a new practice of building solutions. As the solutions architect, you will build proof of value systems to demonstrate what is possible through modern technology and practices. Reviewing agency's current approaches and helping them apply new technology to solve their business problems is one of the many things you'll be doing. You will lead by example and inspire an entire community of technologists looking to create new approaches to problem solving.

QUALIFICATIONS

You must be an experienced developer with a diverse technology background including a bachelor's degree in computer science. You must have expert knowledge of development practices like Scrum, Agile and Joint and Rapid Application Development. You must have advanced infrastructure knowledge including PaaS, IaaS, and SaaS technologies and how they can be applied to solving business problems.

PROCESS

Interested applicants should submit the following:

- (1) A letter of interest, describing specific qualifications for the position;
- (2) A current resume, detailing experience, education, and current salary;
- (3) A list of at least three professional references with current telephone numbers; and
- (4) Personal Data sheet www.ofm.wa.gov/jobs/datasheet.doc

The top candidates will be invited to an interview to determine the finalists for this position. Since the selection will be based on information provided by the candidates, it is in the candidate's best interest to address the mandatory and desirable qualifications of the job as they apply to their knowledge, skills, and abilities.
